Intro  
... **construction project management**, processes • Examine ...

Project Start-up Process . Once the contract has been awarded, project's construction start-up begins. project kick-off meeting is organised to plan • Representatives from the owner, architect and other design consultants, the general contractor and major subcontractors must attend the project kick-off meeting or a series of meetings to plan project activities. . All parties need to establish standard procedures for a filing system, payment system, safety and quality control programs, inspection and testing protocols, project closeout procedures, dispute resolution

Project Start-up Activities . Typical Project Start-up Activities include: • Evaluating the Specifications •

Selecting Finalising Subcontractors • Developing a Project Schedule • Securing the Labour Work Force • Securing Materials and Supplies • Obtaining Insurances • Establishing a Project Communication System • Implementing a process for Shop Drawings and

Site Supervision Site supervision means the general direction, coordination and oversight of the on-site work processes. Site supervision responsibilities are carried out by a Site Supervisor (also known as, Site Superintendent or Site Super). • The Site Supervisor's role is to coordinate and control all physical aspects of the day-to-day working on construction projects to ensure safety and compliance with all regulatory requirements.

Safety on a construction jobsite is one of the most important aspect of any project. . Making sure that construction worksites are as safe as possible begins with developing a safety plan, providing basic safety training to all employees, and adhering to safety procedures.
