London: Macmillan, 1916. Subject: Folklore, Russia

## **Subject Guide to Books in Print**

This book presents a side of Russian life that is largely unknown to the West - the world of popular culture. By surveying detective and science fiction, popular songs, jokes, box office movie hits, stage, radio and television, Professor Richard Stites introduces the people and cultural products that are household words to Russian people. Spanning the entire twentieth century, the author examines the subcultures that draw upon and enrich Russian popular culture. He explores the relationship between popular culture and the national and social values of the masses, including their heroes and myths, and assesses the phenomenon of the celebrity from the silent screen star to the latest rock music idol. Richard Stites pays particular attention to the dramatic battle between elite and popular culture and to the intervention of revolutions, wars, and the state in the production and control of this culture.

## **American Book Publishing Record Cumulative 1998**

This authoritative catalogue of the Corcoran Gallery of Art's renowned collection of pre-1945 American paintings will greatly enhance scholarly and public understanding of one of the finest and most important collections of historic American art in the world. Composed of more than 600 objects dating from 1740 to 1945.

## **Revue des études slaves**

Review: \"The Imperial Sublime examines the rise of the Russian empire as a literary theme alongside the creation and evolution of modern Russian poetry between the 1730s and 1840. Arising from the need to celebrate the Russian state and its expanding territories, the imperial theme quickly became enmeshed in a wider range of issues, from formal problems of genre, style, and lyric voice to the vexed relationship between the poet and Russia's ruling monarchs.\" \"Part of a growing body of recent scholarship that has examined Russian representations of Russia's southern borderlands in the light of European orientalism and imperialism, The Imperial Sublime shows how the broader cultural discourses of empire can be adapted and inflected by a national literary system.\"--BOOK JACKET

## **The Russian Story Book**

6 Punishment and conflict: Urka courts and the 'bitches' war' -- Ritual -- Punishment -- Suchya voina ('bitches' war') -- Conclusion -- Epilogue: Cult of the urka -- Criminal subculture after the Gulag -- Conclusions -- Glossary of commonly used terms -- Notes -- Bibliography -- Index.

## **Tsar and People**

Introduction to Nordic Cultures is an innovative, interdisciplinary introduction to Nordic history, cultures and societies from medieval times to today. The textbook spans the whole Nordic region, covering historical periods from the Viking Age to modern society, and engages with a range of subjects: from runic inscriptions on iron rings and stone monuments, via eighteenth-century scientists, Ibsen's dramas and turn-of-the-century travel, to twentieth-century health films and the welfare state, nature ideology, Greenlandic literature, Nordic Noir, migration, 'new' Scandinavians, and stereotypes of the Nordic. The chapters provide fundamental knowledge and insights into the history and structures of Nordic societies, while constructing critical analyses around specific case studies that help build an informed picture of how societies grow and of the interplay between history, politics, culture, geography and people. Introduction to Nordic Cultures is a tool for understanding issues related to the Nordic region as a whole, offering the reader engaging and stimulating ways of discovering a variety of cultural expressions, historical developments and local preoccupations. The textbook is a valuable resource for undergraduate students of Scandinavian and Nordic studies, as well as students of European history, culture, literature and linguistics.

## **Russian Popular Culture**

\* Provides a comprehensive survey of contemporary thinking in biological, social and cultural anthropology and establishes the interconnections between these three fields. \* Useful cross-references within the text, with full biographical references and suggestions for further reading. \* Carefully illustrated with line drawings and photographs. 'The Companion Encyclopedia of Anthropology is a welcome addition to the reference literature. Bringing together authoritative, incisive and scrupulously edited contributions from some three dozen authors. The book achieves an impressive breadth of coverage of specialist areas.' - Times Higher Educational Supplement 'Recommended for all anthropology collections, especially those in academic libraries.' - Library Journal 'This is a marvellous book and I am very happy to recommend it.' - Reference Reviews

## **Studies in the Russian historical song**

Sheds light on the history of food, cooking, and eating. This collection of essays investigates the connections between food studies and women's studies. From women in colonial India to Armenian American feminists, these essays show how food has served as a means to assert independence and personal identity.

## **Corcoran Gallery of Art**

Universe of the Mind A Semiotic Theory of Culture Yuri M. Lotman Introduction by Umberto Eco  
Translated by Ann Shukman A major book by one of the initiators of cultural studies. "Universe of the Mind is an ambitious, complex, and wide-ranging book that semioticians, textual critics, and those interested in cultural studies will find stimulating and immensely suggestive." --Journal of Communication "Soviet semiotics offers a distinctive, richly productive approach to literary and cultural studies and Universe of the Mind represents a summation of the intellectual career of the man who has done most to guarantee this." --Slavic and East European Journal Universe of the Mind addresses three main areas: meaning and text, culture, and history. The result is a full-scale attempt to demonstrate the workings of the semiotic space or intellectual world. Part One is concerned with the ways that texts generate meaning. Part Two addresses Lotman's central idea of the semiosphere--the domain in which all semiotic systems can function--presented through an analogy with the global biosphere. Part Three focuses on semiotics from the point of view of history. A seminal text in cultural semiotics, the book's ambitious scope also makes it applicable to disciplines outside semiotics. The book will be of great interest to those concerned with cultural studies, anthropology, Slavic studies, critical theory, philosophy, and historiography. Yuri Mikhailovich Lotman is the founder of the Moscow-Tartu School and the initiator of the discipline of cultural semiotics.

## **Circassian Bibliography**

For many centuries Jews and Germans were economically and culturally of significant importance in East-Central and Eastern Europe. Since both groups had a very similar background of origin (Central Europe) and spoke languages which are related to each other (German/Yiddish), the question arises to what extent Jews and Germans in Eastern Europe share common historical developments and experiences. This volume aims to explore not only entanglements and interdependences of Jews and Germans in Eastern Europe from the late middle ages to the 20th century, but also comparative aspects of these two communities. Moreover, the perception of Jews as Germans in this region is also discussed in detail.

## **The Imperial Sublime**

"[A] most impressive achievement by an extraordinarily intelligent, courageous, and—that goes without saying—'well-read' mind. The scope of this work is enormous: it provides no less than a comprehensive, historically grounded theory of 'modern peoplehood,' which is Lie's felicitous umbrella term for everything that goes under the names 'race,' 'ethnicity,' and 'nationality.'" Christian Joppke, American Journal of Sociology "Lie's objective is to treat a series of large topics that he sees as related but that are usually treated separately: the social construction of identities, the origins and nature of modern nationalism, the explanation of genocide, and racism. These multiple themes are for him aspects of something he calls 'modern peoplehood.' His mode of demonstration is to review all the alternative explanations for each phenomenon, and to show why each successively is inadequate. His own theses are controversial but he makes a strong case for them. This book should renew debate." Immanuel Wallerstein, Yale University and author of The Decline of American Power: The U.S. in a Chaotic World

## **Criminal Subculture in the Gulag**

The concept of a 'return to Europe' has been integral to the movement for Ukrainian national rebirth since the nineteenth century. While the goal of a more fully reformed politics remains elusive, numerous expressions of Ukrainian culture continue to develop in the European spirit. This wide-ranging book explores Ukraine's European cultural connection, especially as it has been reestablished since the country achieved independence in 1991. The contributors discuss many aspects of Ukraine's contemporary culture - history, politics, and religion in Part I; literary culture in Part II; and language, popular culture, and the arts in Part III. What emerges is a fascinating picture of a young country grappling with its divided past and its colonial heritage, yet asserting its voice and preferences amid the diverse and at times conflicting realities of the

contemporary political scene. Europe becomes a powerful point of reference, a measure against which the situation in post-independence Ukraine is gouged and debated. This framework allows for a better understanding of the complexities deeply ingrained in the social fabric of Ukrainian society.

## **Russia and the Negro**

When the scientific study of the Black Sea Region began in the late 18th and early 19th centuries, initially commissioned by adjacent powers such as the Habsburg and the Russian empires, this terra incognita was not yet considered part of Europe. The eighteen chapters of this volume show a broad range of thematic foci and theoretical approaches - the result of the enormous richness of the European macrocosm and the BSR. The microcosms of the many different case studies under scrutiny, however, demonstrate the historical dimension of exchange between the allegedly opposite poles of 'East' and 'West' and underscore the importance of mutual influences in the development of Europe and the BSR.

## **Introduction to Nordic Cultures**

Four gems, with new introductions, mark acclaimed Indian writer R. K. Narayan's centennial. Introducing this collection of stories, R. K. Narayan describes how in India "the writer has only to look out of the window to pick up a character and thereby a story." Composed of powerful, magical portraits of all kinds of people, and comprising stories written over almost forty years, *Malgudi Days* presents Narayan's imaginary city in full color, revealing the essence of India and of human experience. This edition includes an introduction by Pulitzer Prize-winning author Jhumpa Lahiri. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

## **Companion Encyclopedia of Anthropology**

A wide-ranging consideration of the nature and significance of Pushkin's African heritage. Roughly in the year 1705, a young African boy, acquired from the seraglio of the Turkish sultan, was transported to Russia as a gift to Peter the Great. This child, later known as Abram Petrovich Gannibal, was to become Peter's godson and to live to a ripe old age, having attained the rank of general and the status of Russian nobility. More important, he was to become the great-grandfather of Russia's greatest national poet, Alexander Pushkin. It is the contention of the editors of this book, borne out by the essays in the collection, that Pushkin's African ancestry has played the role of a "wild card" of sorts as a formative element in Russian cultural mythology; and that the ways in which Gannibal's legacy has been included in or excluded from Pushkin's biography over the last two hundred years can serve as a shifting marker of Russia's self-definition. The first single volume in English on this rich topic, *Under the Sky of My Africa* addresses the wide variety of interests implicated in the question of Pushkin's blackness—race studies, politics, American studies, music, mythopoetic criticism, mainstream Pushkin studies. In essays that are by turns biographical, iconographical, cultural, and sociological in focus, the authors—representing a broad range of disciplines and perspectives—take us from the complex attitudes toward race in Russia during Pushkin's era to the surge of racism in late Soviet and post-Soviet contemporary Russia. In sum, *Under the Sky of My Africa* provides a wealth of basic material on the subject as well as a series of provocative readings and interpretations that will influence future considerations of Pushkin and race in Russian culture.

## **From Betty Crocker to Feminist Food Studies**

"Reader, where are you?", wondered, in the mid-1880s, Mikhail Saltykov-Shchedrin, one of the Russian writers that paid the most attention to the readership of his time. Saltykov-Shchedrin's call did not go unanswered. Over the past two centuries, various disciplines – from the social sciences to psychology,

literary criticism, semiotics, historiography and bibliography – alternately tried to outline the specific features of the Russian reader and investigate his function in the history of Russian literary civilization. The essays collected in this volume follow in the tradition but, at the same time, present new challenges to the development of the discipline. The contributors, coming from various countries and different cultures (Russia, the US, Italy, France, Britain), discuss the subject of reading in Russia – from the age of Catherine II to the Soviet regime – from various perspectives: from aesthetics to reception, from the analysis of individual or collective practices, to the exploration of the social function of reading, to the spread and evolution of editorial formats. The contributions in this volume return a rich and articulated portrait of a culture made of great readers.

## **Universe of the Mind**

"[Western Music and Its Others] will be taken as an important book signalling a new turn within the field. It takes the best features of traditional, rigorous scholarship and brings these to bear upon contemporary, more speculative questions. The level of theoretical sophistication is high. The studies within it are polemical and timely and of lasting scholarly value." --Will Straw, co-editor of *Theory Rules: Art as Theory/ Theory and Art*

"The great value of this collection lies in the wealth of questions that it raises--questions that together crystallize the recent concerns of musicology with force and clarity. But it also lies in the authors' resistance to the easy 'postmodernist' answers that threaten to turn new musicology prematurely grey. The editors' comprehensive, intellectually adventurous introduction exemplifies the sort of eager yet properly skeptical receptivity to scholarly innovation that fosters lasting disciplinary reform. It alone is worth the price of the book." --Richard Taruskin, author of *Stravinsky and the Russian Traditions: A Biography of the Works Through "Mavra"*

"When cultural-studies methods first appeared in musicology 15 years ago, they triggered a storm of polemics that sometimes overshadowed the important issues being raised. As the canon wars recede, however, scholars are finding it possible to focus on the concerns that led them to cultural criticism in the first place: the study of music and its political meanings. *Western Music and Its Others* brings together leading musicologists, ethnomusicologists, and specialists in film and popular music to explore the ways European and North American musicians have drawn on or identified themselves in tension with the musical practices of Others. In a series of essays ranging from examination of the Orientalist tropes of early 20th-century Modernists to the tangled claims for ownership in today's World Music, the authors in this collection greatly advance both our knowledge of specific case studies and our intellectual awareness of the complexity and urgency of these problems. A timely intervention that should help push music studies to the next level." --Susan McClary, author of *Conventional Wisdom: The Content of Musical Form* (2000)

"This collection provides a sophisticated model for using theory to interrogate music and music to interrogate theory. The essays both take up and challenge the dominance of notions of representation in cultural theory as they explore the relevance of the concepts of hybridity and otherness for contemporary art music. Sophisticated theory, erudite scholarship and a very real appreciation for the specificities of music make this a powerful and important addition to our understanding of both culture and music." --Lawrence Grossberg, author of *Dancing in Spite of Myself*

## **Jews and Germans in Eastern Europe**

FINALIST FOR THE PULITZER AWARD A magisterial and acclaimed history of post-war Europe, from Germany to Poland, from Western Europe to Eastern Europe, selected as one of New York Times Ten Best Books of the Year Europe in 1945 was drained. Much of the continent was devastated by war, mass slaughter, bombing and chaos. Large areas of Eastern Europe were falling under Soviet control, exchanging one despotism for another. Today, the Soviet Union is no more and the democracies of the European Union reach as far as the borders of Russia itself. Postwar tells the rich and complex story of how we got from there to here, demystifying Europe's recent history and identity, of what the continent is and has been. 'It is hard to imagine how a better - and more readable - history of the emergence of today's Europe from the ashes of 1945 could ever be written...All in all, a real masterpiece' Ian Kershaw, author of *Hitler*

## **Modern Peoplehood**

Grace believed she went from losing it all to having it all. In a desperate attempt to put her life back together, Grace, divorced and jobless, leaves Tucson to return to Chicago—a place she never planned to call home again. She also never planned to fall for Benjamin Hayward. Drawn into the fairytale existence of his power and wealth, Grace is unable to see what her family and friends see, and ignores the warning signs of Dr. Benjamin Hayward's dark side. Benjamin's secrets—the death of his mentally ill wife and the disappearance of his daughter—push Grace into an abyss deeper than the one that brought her home in the first place, and she risks losing even more. *Pieces of Grace* is a complicated story of relationships confused by undercurrents of mental illness. Readers find themselves hoping family and friends can carry Grace through her most difficult moments.

## **Contemporary Ukraine on the Cultural Map of Europe**

Siberia has no history of independent political existence, no claim to a separate ethnic identity, and no clear borders. Yet, it could be said that the elusive country 'behind the Urals' is the most real and the most durable part of the Russian landscape. For centuries, Siberia has been represented as Russia's alter ego, as the heavenly or infernal antithesis to the perceived complexity or shallowness of Russian life. It has been both the frightening heart of darkness and a fabulous land of plenty; the 'House of the Dead' and the realm of utter freedom; a frozen wasteland and a colourful frontier; a dumping ground for Russia's rejects and the last refuge of its lost innocence. The contributors to *Between Heaven and Hell* examine the origin, nature, and implications of these images from historical, literary, geographical, anthropological, and linguistic perspectives. They create a striking, fascinating picture of this enormous and mysterious land.

## **Europe and the Black Sea Region**

Why do early films present the Netherlands as a country full of canals and windmills, where people wear traditional costumes and wooden shoes, while industries and modern urban life are all but absent? *Images of Dutchness* investigates the roots of this visual repertoire from diverse sources, ranging from magazines to tourist brochures, from anthropological treatises to advertising trade cards, stereoscopic photographs, picture postcards, magic lantern slide sets and films of early cinema. This richly illustrated book provides an in-depth study of the fascinating corpus of popular visual media and their written comments that are studied for the first time. Through the combined analysis of words and images, the author identifies not only what has been considered "typically Dutch" in the long nineteenth century, but also provides new insights into the logic and emergence of national clichés in the Western world.

## **Malgudi Days**

Not so long ago, it seemed the intellectual positions on globalization were clear, with advocates and opponents making their respective cases in decidedly contrasting terms. Recently, however, the fronts have shifted dramatically. The aim of this publication is to contribute philosophical depth to the debates on globalization conducted within various academic fields – principally by working out its normative dimensions. The interdisciplinary nature of this book's contributors also serves to scientifically ground the ethical-philosophical discourse on global responsibility. Though by no means exhaustive, the expansive scope of the works herein encompasses such other topics as the altering consciousness of space and time, and the phenomenon of globalization as a discourse, as an ideology and as a symbolic form.

## **Under the Sky of My Africa**

In this comprehensive account of censorship of the visual arts in nineteenth-century Europe, when imagery was accessible to the illiterate in ways that print was not, specialists in the history of the major European countries trace the use of censorship by the authorities to implement their fears of the visual arts, from

caricature to cinema.

## **Reading in Russia**

Challenging the popular myth of a present-day 'information revolution', *Media Technology and Society* is essential reading for anyone interested in the social impact of technological change. Winston argues that the development of new media forms, from the telegraph and the telephone to computers, satellite and virtual reality, is the product of a constant play-off between social necessity and suppression: the unwritten law by which new technologies are introduced into society only insofar as their disruptive potential is limited.

## **Western Music and Its Others**

Twentieth-century Russia, in all its political incarnations, lacked the basic features of the Western liberal model: the rule of law, civil society, and an uncensored public sphere. In *Slavophile Empire*, the leading historian Laura Engelstein pays particular attention to the Slavophiles and their heirs, whose aversion to the secular individualism of the West and embrace of an idealized version of the native past established a pattern of thinking that had an enduring impact on Russian political life. Imperial Russia did not lack for partisans of Western-style liberalism, but they were outnumbered, to the right and to the left, by those who favored illiberal options. In the book's rigorously argued chapters, Engelstein asks how Russia's identity as a cultural nation at the core of an imperial state came to be defined in terms of this antiliberal consensus. She examines debates on religion and secularism, on the role of culture and the law under a traditional regime presiding over a modernizing society, on the status of the empire's ethnic peripheries, and on the spirit needed to mobilize a multinational empire in times of war. These debates, she argues, did not predetermine the kind of system that emerged after 1917, but they foreshadowed elements of a political culture that are still in evidence today.

## **Postwar**

Based on a great deal of recent research performed by academics investigating works translated from/into English, this book provides fresh perspectives to the field of translation studies. It combines theoretical and practical aspects of the translation process with a comprehensive set of thoroughly commented examples. *Perspectives in Translation Studies* is a structurally complex volume which:

- Is especially designed to cover insights into a wide range of British and American literary products (novels, short stories and poetry)
- Comparatively examines patterns of language use in English and other languages, referring both to pairs of verbs and phraseological constructions (collocations and idioms, pre-fabricated or ready-made phrases and proverbs)
- Explores some of the globalization challenges in the translation of national films into English

It is ideal for every person with an interest not only in the art or the making of a translation but also in the result of the translation process.

## **Pieces of Grace**

In this groundbreaking book David Roberts sets out to demonstrate the centrality of the total work of art to European modernism since the French Revolution. The total work of art is usually understood as the intention to reunite the arts into the one integrated whole, but it is also tied from the beginning to the desire to recover and renew the public function of art. The synthesis of the arts in the service of social and cultural regeneration was a particularly German dream, which made Wagner and Nietzsche the other center of aesthetic modernism alongside Baudelaire and Mallarmé. The history and theory of the total work of art pose a whole series of questions not only to aesthetic modernism and its utopias but also to the whole epoch from the French Revolution to the totalitarian revolutions of the twentieth century. The total work of art indicates the need to revisit key assumptions of modernism, such as the foregrounding of the autonomy and separation of the arts at the expense of the countertendencies to the reunion of the arts, and cuts across the neat equation of avant-gardism with progress and deconstructs the familiar left-right divide between revolution and

reaction, the modern and the antimodern. Situated at the interface between art, religion, and politics, the total work of art invites us to rethink the relationship between art and religion and art and politics in European modernism. In a major departure from the existing literature David Roberts argues for twin lineages of the total work, a French revolutionary and a German aesthetic, which interrelate across the whole epoch of European modernism, culminating in the aesthetic and political radicalism of the avant-garde movements in response to the crisis of autonomous art and the accelerating political crisis of European societies from the 1890s forward.

## **Between Heaven and Hell**

This new volume from the author of *Scenarios of Power* explores the effect of the symbolic and mythical representations of the Russian imperial government on law, administrative practice, and concepts of national and imperial identities throughout centuries of monarchical rule. Richard Wortman demonstrates how the ideologies behind such representations shaped the thought patterns not only of the tsar and the imperial family but also of the Russian political and social elite. He characterizes the monarchy as an active agent in Russia's political experience, one whose dominant role was resisting change until the inevitable collapse facing all absolute monarchies.

## **Images of Dutchness**

Dr. Gruman's book examines the quest for longevity and immortality up to the year 1800. He presents multicultural perspectives and attitudes as depicted in Islamic and Chinese societies as well as in Western Civilization. This scholarly work contributes to our understanding of the origins of medicine, personal hygiene and public health as well as the underlying psychological and social determinants of longevity and humanity's longing for its attainment.

## **Philosophy of Globalization**

This book celebrates the work and career of the internationally renowned art historian, David Bindman, on the occasion of his 75th birthday, and is above all a tribute to him from his former students and colleagues.

## **Political Censorship of the Visual Arts in Nineteenth-Century Europe**

In offering this study of Negro music, I do so with the admission that there is no consistent development as found in national schools of music. The Negro, a musical force, through his own distinct racial characteristics has made an artistic contribution which is racial but not yet national. Rather has the influence of musical stylistic traits termed Negro, spread over many nations wherever the colonies of the New World have become homes of Negro people. These expressions in melody and rhythm have been a compelling force in American music Ð tragic and joyful in emotion, pathetic and ludicrous in melody, primitive and barbaric in rhythm. The welding of these expressions has brought about a harmonic effect which is now influencing thoughtful musicians throughout the world. At present there is evidenced a new movement far from academic, which plays an important technical part in the music of this and other lands. The question as to whether there exists a pure Negro art in America is warmly debated. Many Negroes as well as Anglo-Americans admit that the so-called American Negro is no longer an African Negro. Apart from the fusion of blood he has for centuries been moved by the same stimuli which have affected all citizens of the United States. They argue rightly that he is a product of a vital American civilization with all its daring, its progress, its ruthlessness, and unlovely speed. As an integral part of the nation, the Negro is influenced by like social environment and governed by the same political institutions; thus page vi we may expect the ultimate result of his musical endeavors to be an art-music which embodies national characteristics exercised upon by his soul's expression. In the field of composition, the early sporadic efforts by people of African descent, while not without historic importance, have been succeeded by contributions from a rising group of talented composers of color who are beginning to find a listening public. The tendency of this music is toward the development of an American symphonic,

operatic and ballet school led for the moment by a few lone Negro musicians of vision and high ideals. The story of those working toward this end is herein treated. Facts for this volume have been obtained from educated African scholars with whom the author sought acquaintanceship and from printed sources found in the Boston Public Library, the New York Public Library and the Music Division of the Library of Congress. The author has also had access to rare collections and private libraries which include her own. Folk material has been gathered in personal travel.
