Chemical Energy \u0026 The ATP/ADP Cycle 101 - Chemical Energy \u0026 The ATP/ADP Cycle 101 by Coach Spivey Science 4,395 views 3 years ago 5 minutes, 28 seconds - In today's video we do a breakdown of **chemical energy**, and the **ATP**,/ADP cycle. We cover how **chemical energy**, and the **ATP**,/ADP ... i can explain how ATP is used to help the body maintain dynamir homeostasis.

Our cells need energy to make new molecules such as enzymes and other proteins.

The energy we need is stored in the form of chemical bonds in ATP

What is the chemical and structural makeup of ATP? How do we get the energy we need to survive from ATP?

Adenosine Triphosphate Tri = 3

Adenosine 'TRI' phosphate

Hydrolysis is a chemical reaction in which a water molecule is used to split another molecule.

ATP helps the body maintain dynamic homeostasis by providing cells the energy they need to perform the many tasks they complete throughout the day.

ATP - Adenosine Triphosphate - Cell Energy - ATP - Adenosine Triphosphate - Cell Energy by The Organic Chemistry Tutor 41,856 views 4 years ago 7 minutes, 2 seconds - This Biology video tutorial focuses on **ATP**, which stands for **Adenosine Triphosphate**,. **ATP**, is the **energy**, currency of the cell.
