Thoughts and Experiences of a Charity Organizationist, Etc

How can such a bright future be so full of darkness? Beautiful young Charity Freestone has it all: the love of a good man, the revelation of her remarkable identity, and her family reunited after their spectacular battle with the Sons of the Crystal Mind. However, at her moment of triumph Charity is tricked into joining the mysterious New Form Enterprise, whose harsh regime seems designed to break her. Before she can learn their strange purpose, a shocking betrayal brings unique and terrifying freedom. Cut off from its advanced technology, Charity is hunted through war-torn, subterranean Diamond City by an enemy who is always closer than she thinks. As she struggles to make sense of her inhumanly ruthless pursuers, Charity must confront her own complicity in the nightmare that engulfs her. And when she does, she discovers there are far worse places than the dreaded Outer Spheres. Book Two of Andrew Wallace's viscerally thrilling Diamond Roads science fiction series, The Outer Spheres takes extraordinary heroine Charity Freestone into even stranger and more disturbing territory. The novel threads bleeding-edge science through a fearsomely-wrought war story to explore the unimaginable outcomes of our most terrifying decisions. Blending the vast and eerie scale of Peter F Hamilton's The Reality Dysfunction with the originality and political insight of Anne Leckie's Ancillary Justice, The Outer Spheres forges a unique vision of fear and wonder. Diamond Roads is fast becoming a whole new mythology, exploring the way things are against a wildly-imagined backdrop of how they might turn out. To see if Charity survives, and whether she can be truly free of her pursuers and her own demons, buy the book now. Fair Seed-Time is a major re-interpretation of the historical background to the writings of George Eliot. It rejects several oft-repeated myths about the early 19th Century Midland world in which George Eliot grew up, emphasises the importance of a previously neglected character in that world, Francis Newdigate, and provides a detailed insight into the life of Eliot's father, Robert Evans. It shows how he rose socially throughout his life and how he played a significant role in the professional development of early 19th Century Land Agents. It provides detailed and carefully-argued evidence to illustrate how his life and work profoundly influenced George Eliot's novels, from which there are many quotations. The author has delved into previously unread historical diaries and many other original and previously little used sources to bring alive the rapidly changing economic and social world of the early nineteenth century in general and north

Warwickshire in particular. The result will be of interest both to general and local historians of this period, those concerned with the evolution of land agency as a profession, and to all students of literature, and especially George Eliot scholars, because of the fresh insights into her work.

The Outer Spheres

Providing new insights into the contemporary creationist-evolution debates, this book looks at the Hindu cultural-religious traditions of India, the Hindu Dharma traditions. By focusing on the interaction of religion and science in a Hindu context, it offers a global context for understanding contemporary creationist-evolution conflicts and tensions utilizing a critical analysis of Hindu perspectives on these issues. The cultural and political as well as theological nature of these conflicts is illustrated by drawing attention to parallels with contemporary Islamic and Buddhist responses to modern science and Darwinism. The book explores various ancient and classical Hindu models to explain the origin of the universe encompassing creationist as well as evolutionary—but non-Darwinian—interpretations of how we came to be. Complex schemes of cosmic evolution were developed, alongside creationist proofs for the existence of God utilizing distinctly Hindu versions of the design argument. After examining diverse elements of the Hindu Dharmic traditions that laid the groundwork for an ambivalent response to Darwinism when it first became known in India, the book highlights the significance of the colonial context. Analysing critically the question of compatibility between traditional Dharmic theories of knowledge and the epistemological assumptions underlying contemporary scientific methodology, the book raises broad questions regarding the frequently alleged harmony of Hinduism, the eternal Dharma, with modern science, and with Darwinian evolution in particular.

The Musical World

\"Mary Gibbons's appraisal provides the first scholarly study of Giambologna's remarkably original religious sculpture in relief. In their pictorial austerity and unabashedly metallic forms, Giambologna's bronze narratives present us with bold innovations. This study offers new photographic documentation, archival discoveries, and, most significantly, new ideas and fresh perceptions of Giambologna's art.\"--Malcolm Campbell, University of Pennsylvania \"This timely interdisciplinary study makes a major contribution, integrating Genoa into Late Medieval, Renaissance, and Baroque studies. Mary Gibbons illuminates the late career of this major Mannerist court artist. Her use of new documents to reconstruct and redate the commission argues for a more contextual approach to Giambologna in relation to the Genoese old nobility,

the Genoese Republic, Catholic reform, and Genoese-Florentine relations within the Hapsburg Empire at the end of the Cinquecento."--George L. Gorse, Pomona and Scripps Colleges
"Mary Weitzel Gibbons's book successfully challenges the received wisdom that Giambologna as a sculptor was concerned only with the formal appearance of his figures in the round. In this highly original analysis of his work in the Grimaldi Chapel in Genoa, Gibbons takes on the largely neglected field of sixteenth-century relief sculpture, placing Giambologna's contribution properly in the larger discourse of narrative practices in both painting and sculpture."--Sheila Folliott, George Mason University
